

Pumps

Code 33000010 – Foot pump. Tank capacity 1,5 Lt., max working pressure 220 Bar. Very easy to pump even a big weight. Dimensions 680x180x450 mm., packaging 740x200x240 mm., weight Kg. 12,5. Suitable on all motorcycle lifts.

Code 33000020 – Hydro-pneumatic pump. Feeding by compressed air at the working pressure of 8 Atm, max working power 250 Bar. Noisiness 65 dB. Dimensions 340x200x230 mm., packaging 460x200x260 mm., weight Kg. 10. Suitable on all motorcycle lifts.

Code 33000030 – horizontal electro-hydraulic pump. Two safety N.O. pedal switches according to EC standard, single phase engine 220 Volt, 1 HP (0,75 KW) and hydraulic gear pump, tank capacity 1,5 Lt., max pressure 280 Bar. Dimensions 890x450x190 mm., weight 19,5 Kg. Suitable on the following motorcycles lifts: DB 90 and SF 600. Oil can not included.

Code 33000050 – Vertical electro-hydraulic pump. Metal cabinet that can be opened for inside inspection, equipped with handles for moving it. Single phase engine 220 Volt, 1 HP (0,75 KW) with hydraulic gear pump, tank capacity 1,5 Lt., max pressure 280 Bar. Dimensions 250x250x800 mm., weight Kg. 20, available on all motorcycle lifts. Oil can not included.

Code 55000050 – Hydraulic oil 32. Wear resistant, antioxidant, antirust, antifoaming oil, specific for the above mentioned pumps. Can Lt.1.
